Reliant requires a minimum of three (3) business days to process service start or stop requests. I understand that the following information is required to begin the enrollment process with Reliant an NRG Company PUC #10007, a retail electric provider. Enrollments on Temporary and Permanent Meters, Apartment Commercial Areas, Non-model Homes, Model Homes are invoiced on the Builder Power Plus Monthly Flex Plan with an energy charge of 6.9¢ per kWh. Recurring charges from your local transmission and distribution service provider (TDSP) will be combined into a line on your bill labeled *Oncor Pass-Through Charges*. Other non-recurring fees or charges may be assessed by the TDSP. I understand that the average price per/kWh is 12.9¢ for 1,500 kWh/month, 11.6¢ for 2,500 kWh/month, and 11.1¢ for 3,500 kWh/month. There is a $4.95 monthly base charge, no minimum term, no switching fee, and no penalty for early cancellation. As a part of this plan, your invoice will include transmission and distribution charges (TDSP Pass-Through Charges) assessed by the transmission and distribution company that will be passed through to your invoice without markup. This is a variable price plan, which means your energy consumption charge may either increase or decrease based on market conditions without prior notice to you. After your first bill, your price may change from month to month without notice. The energy consumption charge will be established on the first day of each month. You will be billed at the energy consumption charge in effect on your meter read start date plus the base charge and demand charge.

Authorization: By signing below, (i) I certify that I am at least eighteen (18) years of age and legally authorized by all necessary action to act on behalf of customer to select Reliant PUC #10007 as retail electric provider for the account(s) identified and perform the tasks necessary to complete the enrollment; (ii) Customer understands that complete Terms of Service will be sent to the customer's specified mailing address.
